

beanbags.com Teardrop Users Guide

1. When your Teardrop Bean Bag arrives – take it out of its box, turn it upside down and grab it by its zipper. Proceed to shake the bean bag to fluff out the beads and adjust them down to the tip of the bag.

2. With one hand still grasping the zipper, turn the bag right-side-up and grab the tip of the Teardrop. Then set the bag down onto the floor and let go.

3. Plop down into the Teardrop Bean Bag and squirm around until it fits around your back and tush. Enjoy!!

Follow the above steps anytime your Teardrop Bean Bag needs to be refluffed or reshaped!!
